

Albert Casas

Senior Frontend / Fullstack Developer

Barcelona, Spain albertcasas3d@gmail.com +34 625 240 984
Open to remote opportunities

Professional Summary

Senior frontend-focused fullstack developer with 3+ years of experience building scalable product features, reusable component systems, and performant web applications. Deep expertise in Vue.js ecosystems (Vuex, Pinia) and proven ability to own and deliver complex UI initiatives end-to-end. Experienced working with distributed and cross-functional teams in agile environments.

Skills

Frontend: Vue.js, React, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS

State Management: Vuex, Pinia

Backend: FastAPI, Alembic, MySQL, Node.js, REST APIs

Architecture: Component Design, Performance Optimization, Scalability

Workflow: Git, Agile/Scrum, Product Collaboration, Cross-functional Teams

Experience

Fullstack Developer (Frontend-focused) · Remuner

Nov 2025 – Present | Hybrid (Barcelona)

- Developing core frontend product features using Vue.js and modern JavaScript frameworks.
- Designing reusable UI component libraries and scalable frontend architecture patterns.
- Building backend services and REST APIs using FastAPI with async Python.
- Managing database schema migrations with Alembic and working with MySQL.
- Collaborating closely with product managers and backend engineers to deliver end-to-end features.

Main Frontend Developer · Vidjet

Jan 2023 – Nov 2025 | Remote

- Sole frontend engineer responsible for the entire frontend codebase — from architecture decisions to production delivery.
- Led development of complex shoppable video widgets used by ecommerce clients globally, handling high-traffic embed scenarios.
- Grew from intern to sole frontend owner in under one year, earning full technical ownership of the product's UI layer.
- Architected scalable state management solutions using Vuex and Pinia, improving code maintainability across the codebase.
- Implemented advanced customization systems that significantly improved product flexibility and reduced client onboarding time.
- Collaborating with a cross-functional team of engineers and product managers in a hybrid setup.
